**NOTES:**  
 Not all legend items may appear on this map.  
 Features shown on this map do not legally pass to any lands.  
 The land status data displayed on this map may not be complete and  
 may contain errors in boundary location and/or coding.

**DISCLAIMER:**  
 The MT Natural Heritage Program, MT State Library, MT Dept. of  
 Administration and MT Dept. of Revenue make no representations or  
 warranties whatsoever with respect to the accuracy or completeness  
 of the data contained in these maps and assumes no responsibility  
 for the suitability of these data for a particular purpose. These agencies  
 do not intend to be liable for any damages (including consequential  
 damages) that may result from the use of or reliance on the data.  
 The survey boundaries displayed on this map are not based on  
 land survey data and are not a substitute for property survey.  
 This map displays public and private land ownership information derived from  
 several sources and continues to be corrected and updated.

**THIS WORK WAS PRODUCED AS A JOINT EFFORT BETWEEN THE MT DGTS, OF FISH, WILDLIFE, AND PARKS (FWP) AND THE MONTANA NATURAL HERPETOLOGICAL INFORMATION SYSTEM (MNHIS) OF THE MT STATE LIBRARY. IN RESPONSE TO MONTANA CODE ANNOTATED 97-2-311, WHICH DIRECTS THE FWP TO "...work cooperatively with all state and federal land management agencies...to develop cooperative land ownership plans...in the State".**

The public land data is from the MT Natural Heritage Program land stewardship data collection. Much of this data was originally supplied by the Bureau of Land Management (BLM) and the Montana Department of Fish, Wildlife, and Parks (FWP). In Additional Information, corrections and updates (especially for tribal lands and private lands) were added by the University of Montana, Wildlife Special Area Program (WSAP) and the Montana Department of Fish, Wildlife, and Parks (FWP). The program has done numerous updates and corrections (especially to state trust lands, Montana Park, Wildlife & Park areas, USFWS & WSAP Game areas, and conservation easements). These areas are based on data supplied by the various land management agencies. Some of the data may not have been verified against county or Montana Department of Revenue records.

The private land data were developed for the Montana Caddisfly Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DDA), the Montana Department of Revenue (DOR), other state agencies, local governments, USDI BLM and private interests. Lands depicted on this map represent all privately owned parcels of caddisfly habitat that are at least 40 acres in size. The DDA maintains the GIS cadastral layer and the DOR maintains the private ownership information.

The base scale for the public ownership data is 1:100,000, though many of the recent older topographic data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scale of 1:24,000 or smaller.

Map produced August 2005 with ownership data current as of August 2005
